In re Application of )  
Hsin-Mao Hsieh ) Art Unit: 2834  
Appln. No. : 09/820,901 ) Ex: P. Cuevas  
Filed : March 30, 2001 )  
For : DUAL WIRE STATOR COIL FOR A )  
RADIATOR FAN )

**RESPONSE**

Assistant Commissioner for Patents  
Washington, D.C. 20231

Sir:

The following amendments and remarks are submitted pursuant to the provisions of 37 CFR 1.111 in response to the Office Action of November 20, 2002.

**AMENDMENTS**

**IN THE CLAIMS:**

**Please further amend claims 1, 8 and 11 as follows:**

1. (Thrice Amended) A dual wire stator coil for a brushless direct current (DC) motor radiator fan, the dual wire stator coil having at least two enamel wires co-axially wound together, each of the enamel wires having opposite first and second ends extending out from the dual wire stator coil, wherein the at least two enamel wires have their first and second ends connected in series, and the stator coil is formed as a uni-coil winding having two terminal ends respectively connected with two output ends of a drive IC that outputs alternating current at the
